SUMMARY:

Front-End Developer focused on building responsive and user-friendly web applications using JavaScript, Tailwind CSS, and modern development workflows. Built real-world projects including a task management app and product landing page with responsive UI and interactive functionality. Currently expanding skills in React.js and modern front-end development.

CORE SKILLS:

HTML5 • Tailwind CSS • JavaScript • ReactJS

TOOLS SET:

Git & GitHub • WordPress • Photoshop • Figma • Canva • Adobe Premier Pro

PROJECTS SECTION:

Gym Towel Landing Page: <https://gym-get-towel.vercel.app/>

- Built a responsive product landing page using HTML, JavaScript, and Tailwind CSS
- Focused on clean UI/UX, mobile responsiveness, and modern layout structure
- Practiced component-style section building and visual hierarchy

Task Todo App: <https://tasks-todos.vercel.app/>

- Built a task management application with add/delete functionality
- Implemented Local Storage to persist tasks after page refresh
- Practiced DOM manipulation, event handling, arrays, and state updates using JavaScript
